# Data Dictionary

Sprint Cycle II database design for Xpression. This describes the fields. It does not create tables or application database code.

A person is stored once, in **Account**. On a role diagram the same record is labeled Creator, Mentor, Talent Scout, Moderator, or Administrator when the use case is about that role. `creator_id`, `mentor_id`, `scout_id`, `moderator_id`, and `administrator_id` are foreign keys to `Account.account_id`.

Key values are Primary Key, Foreign Key, or None.

## Account

The person who can sign in. One account has one role.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| account_id | Unique identifier for the account | Integer | Primary Key | Yes |
| name | Name shown on the role pages | String | None | Yes |
| email | Sign-in email. Unique across accounts | String | None | Yes |
| role | Creator, Mentor, Talent Scout, Moderator, or Administrator | String | None | Yes |
| status | active, suspended, banned, or deactivated | String | None | Yes |
| discipline | Creative discipline, used when a scout searches | String | None | No |
| open_to_commissions | Whether a creator is open to scout contact | Boolean | None | Yes |

## Creative Work

A piece a creator publishes. The creator's portfolio is the set of these rows for that creator.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| work_id | Unique identifier for the piece | Integer | Primary Key | Yes |
| creator_id | Account that published the piece | Integer | Foreign Key | Yes |
| title | Title entered on Publish work | String | None | Yes |
| media_type | Writing, Visual art, or Music | String | None | Yes |
| description | Description of the piece | String | None | Yes |

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| soundcloud_url | SoundCloud link. Used when the piece is music | String | None | No |
| featured | Whether the piece is featured on the creator's portfolio | Boolean | None | Yes |
| archived | Whether the piece is archived instead of shown | Boolean | None | Yes |
| published_at | When the piece was published | DateTime | None | Yes |

## Mentor Feedback

Structured feedback a mentor writes about one piece. The creator reads it on Feedback on my work.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| feedback_id | Unique identifier for the feedback | Integer | Primary Key | Yes |
| work_id | Creative work the feedback is about | Integer | Foreign Key | Yes |
| mentor_id | Mentor account that wrote it | Integer | Foreign Key | Yes |
| request_id | Accepted review request this feedback answers | Integer | Foreign Key | Yes |
| strengths | What is working in the piece | String | None | Yes |
| improvements | What to revise next | String | None | Yes |
| recommendation | Next step for the creator | String | None | Yes |
| written_at | When the feedback was saved | DateTime | None | Yes |

## Feedback Reply

The creator's reply to one mentor feedback.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| reply_id | Unique identifier for the reply | Integer | Primary Key | Yes |
| feedback_id | Feedback being answered | Integer | Foreign Key | Yes |
| reply_text | The creator's response | String | None | Yes |
| replied_at | When the reply was sent | DateTime | None | Yes |

## Review Request

A creator's request that a mentor review a piece. The mentor accepts or declines it.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| request_id | Unique identifier for the request | Integer | Primary Key | Yes |

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| creator_id | Creator who submitted the request | Integer | Foreign Key | Yes |
| mentor_id | Mentor assigned to the request | Integer | Foreign Key | Yes |
| work_id | Piece the creator wants reviewed | Integer | Foreign Key | Yes |
| note | Note from the creator | String | None | No |
| status | waiting, accepted, or declined | String | None | Yes |
| requested_at | When the request was submitted | DateTime | None | Yes |

## Nomination

A mentor's nomination of a piece for the featured feed. A moderator approves or declines the same row.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| nomination_id | Unique identifier for the nomination | Integer | Primary Key | Yes |
| mentor_id | Mentor who nominated the piece | Integer | Foreign Key | Yes |
| work_id | Piece being nominated | Integer | Foreign Key | Yes |
| moderator_id | Moderator who decided it. Empty until a decision | Integer | Foreign Key | No |
| reason | Why the mentor says it should be featured | String | None | Yes |
| status | pending, approved, or declined | String | None | Yes |
| nominated_at | When the mentor nominated it | DateTime | None | Yes |
| decided_at | When the moderator decided it | DateTime | None | No |

## Scout Message

A private message from a talent scout to a creator.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| message_id | Unique identifier for the message | Integer | Primary Key | Yes |
| scout_id | Talent Scout account that sent it | Integer | Foreign Key | Yes |
| creator_id | Creator account that receives it | Integer | Foreign Key | Yes |
| body | Message text | String | None | Yes |
| sent_at | When the message was sent | DateTime | None | Yes |

## Opportunity

A commission, call, or performance a talent scout creates.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| opportunity_id | Unique identifier for the opportunity | Integer | Primary Key | Yes |
| scout_id | Talent Scout account that created it | Integer | Foreign Key | Yes |
| title | Name of the commission, call, or performance | String | None | Yes |
| starts_on | Date the opportunity starts | Date | None | Yes |
| ends_on | Date the opportunity ends | Date | None | No |
| description | What the creator is being invited to | String | None | No |

## Invitation

Associative entity between one opportunity and one creator.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| invitation_id | Unique identifier for the invitation | Integer | Primary Key | Yes |
| opportunity_id | Opportunity being offered | Integer | Foreign Key | Yes |
| creator_id | Creator who is invited | Integer | Foreign Key | Yes |
| status | sent, accepted, or declined | String | None | Yes |
| invited_at | When the invitation was sent | DateTime | None | Yes |

## Work Report

A report filed against a creative work.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| report_id | Unique identifier for the report | Integer | Primary Key | Yes |
| work_id | Piece that was reported | Integer | Foreign Key | Yes |
| reason | Why the work was reported | String | None | Yes |
| reporter_name | Name of the person who reported it | String | None | Yes |
| reported_at | When the report was filed | DateTime | None | Yes |

## Moderation Case

The moderator’s record for one work report. Findings, action, and case status come from the reported-work screen.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| case_id | Unique identifier for the case | Integer | Primary Key | Yes |
| report_id | Work report this case decides | Integer | Foreign Key | Yes |
| moderator_id | Moderator who recorded the case | Integer | Foreign Key | Yes |

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| findings | What the moderator found | String | None | Yes |
| action_taken | kept available, hidden, or removed | String | None | Yes |
| status | open, in review, escalated, or closed | String | None | Yes |
| recorded_at | When the case was saved | DateTime | None | Yes |

## User Report

A report filed against a person's account.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| user_report_id | Unique identifier for the user report | Integer | Primary Key | Yes |
| account_id | Account that was reported | Integer | Foreign Key | Yes |
| reason | Why the account was reported | String | None | Yes |
| reported_at | When the report was filed | DateTime | None | Yes |

## Account Restriction

A moderator's warning, temporary restriction, or referral for a ban.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| restriction_id | Unique identifier for the restriction | Integer | Primary Key | Yes |
| user_report_id | User report this action answers | Integer | Foreign Key | Yes |
| moderator_id | Moderator who recorded it | Integer | Foreign Key | Yes |
| action_type | warn, restrict, or refer for ban | String | None | Yes |
| recorded_at | When the action was recorded | DateTime | None | Yes |

## Status Change

One change an administrator makes to an account's status.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| change_id | Unique identifier for the change | Integer | Primary Key | Yes |
| administrator_id | Administrator who made the change | Integer | Foreign Key | Yes |
| account_id | Account whose status changed | Integer | Foreign Key | Yes |
| new_status | active, suspended, banned, or deactivated | String | None | Yes |
| changed_at | When the status was changed | DateTime | None | Yes |

## Role Application

An application to become a Mentor or a Talent Scout. This is separate from a general account status change.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| application_id | Unique identifier for the application | Integer | Primary Key | Yes |
| administrator_id | Administrator who accepted or rejected it. Empty while pending | Integer | Foreign Key | No |
| applicant_name | Name on the application | String | None | Yes |
| email | Email on the application | String | None | Yes |
| requested_role | Mentor or Talent Scout | String | None | Yes |
| statement | Why the applicant wants the role | String | None | Yes |
| status | pending, accepted, or rejected | String | None | Yes |
| submitted_at | When the application was submitted | DateTime | None | Yes |
| decided_at | When the administrator decided it | DateTime | None | No |

## Analytics Report

A report an administrator generates from the analytics screen.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| report_id | Unique identifier for the report | Integer | Primary Key | Yes |
| administrator_id | Administrator who generated it | Integer | Foreign Key | Yes |
| report_type | platform usage, accounts, or creative posts | String | None | Yes |
| date_from | Start of the date range | Date | None | Yes |
| date_to | End of the date range | Date | None | Yes |
| generated_at | When the report was generated | DateTime | None | Yes |
| result_summary | Figures produced for that criteria | String | None | No |

## Later use cases

These entities are not on the Sprint Cycle I role pages. They are part of the design so later requirements have a place to store data.

## Comment

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| comment_id | Unique identifier for the comment | Integer | Primary Key | Yes |
| work_id | Creative work the comment belongs to | Integer | Foreign Key | Yes |
| author_id | Account that wrote the comment | Integer | Foreign Key | Yes |
| body | Comment text | String | None | Yes |
| gif_url | Optional GIF attached to the comment | String | None | No |
| created_at | When the comment was posted | DateTime | None | Yes |

## Follow

Associative entity. One account follows one creator account.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| follow_id | Unique identifier for the follow | Integer | Primary Key | Yes |
| follower_id | Account that clicked follow | Integer | Foreign Key | Yes |
| creator_id | Creator account being followed | Integer | Foreign Key | Yes |

## Saved Work

Associative entity. One account saves one creative work.

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| save_id | Unique identifier for the save | Integer | Primary Key | Yes |
| account_id | Account that saved the work | Integer | Foreign Key | Yes |
| work_id | Creative work that was saved | Integer | Foreign Key | Yes |
| saved_at | When it was saved | DateTime | None | Yes |

## Help Ticket

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| ticket_id | Unique identifier for the ticket | Integer | Primary Key | Yes |
| account_id | Account that opened the ticket | Integer | Foreign Key | Yes |
| subject | Short subject | String | None | Yes |
| body | What the person needs | String | None | Yes |
| status | open, resolved, set aside, or escalated | String | None | Yes |
| opened_at | When the ticket was opened | DateTime | None | Yes |

## Category

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| category_id | Unique identifier for the category | Integer | Primary Key | Yes |
| name | Name of the medium, genre, or tag | String | None | Yes |
| kind | media, genre, or tag | String | None | Yes |

## Platform Setting

| Field | Description | Data Type | Key | Required |
|---|---|---|---|---|
| setting_id | Unique identifier for the setting | Integer | Primary Key | Yes |
| name | Which setting this is, such as comments or GIFs | String | None | Yes |
| value | The current value of that setting | String | None | Yes |
